The parents' reported 2021 tax filing status is inconsistent with the parents' reported FAFSA marital status. Although the reported tax filing status may accurately reflect the parent tax filing status for the 2021 tax return, we are required to verify this information.

According to the IRS, a taxpayer must use a tax filing status of married filing jointly or married filing separately if they are married or considered married on December 31, 2021. If you were "unmarried" or "considered unmarried" on December 31, 2021, your tax filing status is single, or if you have a qualifying dependent you may file as head of household.

Note: Unmarried parents living together must provide BOTH 2021 tax return transcripts.

Additional documentation or corrections to the FAFSA may be required to resolve these discrepancies. Please verify the following information.
