## NOTICE OF OKLAHOMA BOARD OF NURSING RULE CHANGE REGARDING CRIMINAL OFFENSES AND BACKGROUND CHECKS

Please note and acknowledge the following notice from the Oklahoma Board of Nursing, effective November 1, 2019.

The Oklahoma Board of Nursing has promulgated rules setting forth a list of criminal offenses that disqualify one from becoming or remaining a licensed nurse or certified Advanced Unlicensed Assistant. Potential applicants with a criminal history can obtain an initial determination of eligibility for licensure or certification. These rules comply with amendments to the Oklahoma Nursing Practice Act (OPNA), 59 O.S. §§ 561.1 *et seq.*, effective November 1, 2019.

The rules regarding licensure or certification of individuals with a criminal history and the procedure for obtaining an initial determination of eligibility are listed below. If you believe these rules may apply to you, or if you have further questions, please reach out to the Dean of the School of Nursing and Health Professions, Dr. Teressa Hunter, at [teressa.hunter@langston.edu](mailto:teressa.hunter@langston.edu).

Oklahoma Administrative Code 485:10-11-4. Licensure or Certification of Individuals with Criminal History.

- (a) Purpose and Applicability. This section establishes the criteria utilized by the Board in determining the effect of criminal history on eligibility for nursing licensure or Advanced Unlicensed Assistant (AUA) certification and implements the requirements of Oklahoma Statutes Title 59 Sections 567.1. *et seq.* and 4000.1 (2019). This section applies to:
  - (1) all currently licensed nurses and holders of an AVA certificate;
  - (2) all individuals seeking to obtain a nursing license or AUA certificate; and
  - (3) all individuals seeking an initial determination of their eligibility for nursing licensure or AUA certification.
- (b) The felonies listed below in subsection (c) disqualify an individual from retaining licensure or becoming licensed as a nurse or retaining certification or becoming certified as an AUA in Oklahoma. However, subsection (c) is not an exhaustive or exclusive list of crimes, both felonies and misdemeanors resulting in a conviction or a deferred sentence, that may result in discipline from the Board of Nursing, up to and including revocation. The felonies listed in subsection (c) disqualify an individual because they substantially relate to the practice of nursing and pose a reasonable threat to public safety for the reasons stated below.
  - (1) **The practice of nursing is a unique profession.** Licensees and certificate holders practice nursing autonomously in a wide variety of settings and provide care to patients who are, by virtue of their illness or injury, physically, emotionally, and/or financially vulnerable. These patients often include the elderly, children, those with mental or cognitive disorders, sedated or anesthetized patients, and/or disabled or immobilized individuals. Individuals who have engaged in criminal conduct place patients, healthcare employers, and employees, and the public at risk of harm.
  - (2) **Crimes involving fraud and/or theft.** Licensees and certificate holders often have unfettered access to patients' privileged information, financial information, and valuables, including but not limited to medications, money, jewelry, credit cards/checkbook, and/or sentimental items. The practice of nursing continues 24 hours per day in all healthcare settings, including those where there is often no direct supervision of the individual. Patients in these healthcare settings are particularly vulnerable to the unethical, deceitful, and illegal conduct of a licensee or certificate holder. When an individual has engaged in criminal behavior involving fraud and/or theft, the Board is mindful that similar misconduct may be repeated in healthcare settings, thereby placing patients, healthcare employers and employees, and the public at risk. As such, crimes involving any type of fraud and/or theft are highly relevant to an individual's ability to provide safe nursing care.
  - (3) **Crimes involving sexual misconduct.** Licensees and certificate holders frequently provide nursing care to partially clothed or fully undressed patients who are particularly vulnerable to

exploitation. Due to the intimate nature of nursing care, professional boundaries in the practice of nursing are extremely important. When an individual has engaged in criminal behavior involving any type of sexual misconduct, the Board is mindful that similar misconduct may be repeated in healthcare settings. As such, crimes involving any type of sexual misconduct are highly relevant to an individual's ability to provide safe nursing care.

**(4) Crimes involving lying, falsification, and/or deception.** Licensees and certificate holders are required to accurately and honestly report and record information in a variety of places, such as medical records, pharmacy records, billing records, nursing notes, and plans of care, as well as to report errors in their own nursing practice. When an individual has engaged in criminal behavior involving lying, falsification, and/or deceptive conduct, the Board is mindful that similar misconduct may be repeated in healthcare settings, thereby placing patients, healthcare employers and employees, and the public at risk of harm. As such, crimes involving any type of lying, falsification and/or deception are highly relevant to an individual's ability to provide safe nursing care.

**(5) Crimes involving drugs and/or alcohol.** Licensees and certificate holders have a duty to their patients to provide safe, effective nursing care and to be able to practice safely. Individuals who have a substance use disorder may have impaired judgment and motor skills and are at risk for harming their patients and/or the public. Licensees and certificate holders have access to many medications and drugs, and those with substance use disorders may misuse or steal drugs. Individuals affected by a substance use disorder may be unable to accurately assess patients, make appropriate judgments, or intervene in a timely and appropriate manner, thus putting their patients at risk. This danger is heightened when the licensee or certificate holder works in an autonomous setting where other healthcare providers are not present to intervene for the patient or the public. As such, crimes related to the use or possession of drugs or alcohol are highly relevant to an individual's fitness to practice.

**(6) Crimes involving violence and/or threatening behavior.** Licensees and certificate holders provide care to the most vulnerable populations, including patients who often have no voice of their own and cannot advocate for themselves. Further, patients are dependent on the caregiver-patient relationship for their daily care. When an individual has engaged in violent or threatening criminal behavior, the Board is mindful that patients may be at risk for similar behavior in a healthcare setting. As such, crimes involving violence and threatening behavior are highly relevant to an individual's fitness to practice.

(c) All crimes listed in this subsection are as described in Titles 21, 47, and 63 of the Oklahoma Statutes. In addition, the Board recognizes and gives similar treatment to similar offenses charged in other jurisdictions. Felony convictions that disqualify an individual from retaining licensure or becoming licensed as a nurse, or retaining certification or becoming certified as an AUA in Oklahoma include:

(1) Crimes involving fraud, theft, lying and/or falsification.

(A) Robbery 21 O.S. § 791 et seq.
